Where to buy Ibrunat? (ibrutinib 140 mg)

The proven remedy for cancer of the lymphatic and blood systems Ibrunat from the Indian pharmacological company Natco Pharma Ltd is available for order in the pharmacy. The drug is used in the fight against mantle cell lymphoma, chronic lymphocytic leukemia, Waldenstrom's macroglobulinemia and lymphogranulomatosis. Before use, be sure to consult with a specialist!

Ibrunat capsules price (ibrutinib 140 mg)

The original drug based on ibrutinib was created by the American pharmaceutical company Janssen Pharmaceutical, an analogue of Indian production is produced according to the same formula. Thus, Ibrunat has the same composition and effectiveness as Imbruvik, but costs several times cheaper. The low price of generic drugs is due to the peculiarities of taxation of pharmaceutical manufacturers in India, as well as the low cost of labor. Our site offers to get Ibrunat at an affordable price directly from the manufacturer, without markups and additional payments.

Reviews about the drug Ibrunat

In the course of clinical trials of the active substance ibrutinib, its peculiarity was revealed to selectively inhibit the protein groups of cancer cells responsible for reproduction. Thus, Ibrunat helps to stop the progression of the disease and significantly improve the patient's quality of life. Reviews of those who took the drug note its effectiveness from the first days of admission and the slight toxicity of the drug.
